## Order Information

All WaveLinx PRO control devices require at least one WaveLinx Area Controller for communications. Please ensure that you order a WaveLinx Area Controller (CATNO: WAC2-POE) for the product to work or connect the wallstations to an existing WaveLinx Area Controller.

**Important Note:** The WaveLinx PRO WW-Series wallstation only works with the 2nd generation WaveLinx Area Controller (WAC2-POE). It does not work with the 1st generation WaveLinx Area Controller (WAC-POE).

Catalog Number

### Standard Wallstation Configurations

Catalog Number	Description
WWB1-W	WaveLinx PRO Battery Powered Wallstation, 1 Button, White
WWB3-W	WaveLinx PRO Battery Powered Wallstation, 3 Button, White
WWB3-RL-W	WaveLinx PRO Battery Powered Wallstation, 3 Button Raise / Lower, White
WWB5-RL-W	WaveLinx PRO Battery Powered Wallstation, 5 Button Raise / Lower, White
<b>Notes</b> WaveLinx PRO application required to customize programming for each button.	<b>Notes</b> Suitable for use with standard decorator wall plates (not included). Complete wallstation - buttons are not field replaceable.

### Custom Engraved Wallstation Configurations

Catalog Number	Description
WWB1-W-ENGRV	WaveLinx PRO Battery Powered Wallstation, 1 Button, White, Custom Engraved
WWB3-W-ENGRV	WaveLinx PRO Battery Powered Wallstation, 3 Button, White, Custom Engraved
WWB3-RL-W-ENGRV	WaveLinx PRO Battery Powered Wallstation, 3 Button Raise / Lower, White, Custom Engraved
WWB5-RL-W-ENGRV	WaveLinx PRO Battery Powered Wallstation, 5 Button Raise / Lower, White, Custom Engraved
<b>Notes</b> WaveLinx PRO application required to customize programming for each button.	<b>Notes</b> Suitable for use with standard decorator wall plates (not included). For custom engraving use the configurator tool within the FlashPro Program (CUST-ENGRV). Complete wallstation - buttons are not field replaceable.

### Additional Accessories

Wallplates are not included with Wallstations. Please order separately.

## Product Specifications

The PRO WWB-Series Wallstation is an integral part of the WaveLinx PRO connected lighting system and is available in several small and large button configurations in white color. These wallstations are battery powered and provide wireless control of the lighting in each area.

The PRO WWB-Series Wallstation mounts to a low-voltage wall box (single or multi-gang) and is suitable for a standard or decorator wallplate (not included). Each wallstation is fully configurable to provide local and multi-level control in each area. Each button is configured to control a lighting scene for an area and can be modified using the WaveLinx Mobile Application.

The PRO WWB-Series Wallstation is a multi-scene, single area dimming wallstation which provides customized light level for each area. The wallstation provides default operations, but is fully configurable from the WaveLinx Mobile Application. Two wallstation configurations also include scene raise / lower buttons to further adjust the light levels.

### Key Features

- Easy installation and flexibility:
  - Scene selection
  - Zone control
  - Raise / Lower
  - Scene / Zone Toggle
  - ON / OFF
- Battery powered for simple new or retrofit installations
- Clean, elegant, and simple way to control lighting on your project
- Settings are programmable through the WaveLinx Mobile Application, no physical adjustments necessary

### Mechanical

**Size:** 4.2"H x 1.8"W x 1.5"D (107mm x 45mm x 39mm)

#### Environment:

- **Operating temperature:** 32°F to 113°F (0°C to 45°C)
- **Storage temperature:** 32°F to 167°F (0°C to 75°C)
- **Relative humidity operating:** 5% to 95% non-condensing
- For indoor use only

**Mounting:** Standard single or multi-gang NEMA wall box, and compatible with a decorator wall plate (not included)

**Color:** White

### Electrical

**Power supply type:** Utilizes two (2) CR123A alkaline batteries (included)

### Hardware Specifications

#### Status Indicators:

- Single indicator LED
- LED functionality (active for 3 seconds after action)
  - Indication of wireless network join request
  - Indication of wireless network connection
  - Scene indication of operations

#### Button Configuration:

- 1 Button
- 3 Button
- 3 Button with Raise / Lower
- 5 Button with Raise / Lower

### Software Specifications

- Each button programmable to trigger or toggle Scene or Zone
- Default values when joined to an area via WaveLinx Mobile application
- Models available with dominant button 50% light level
- Fade rates and scene transitions are programmable

### Wireless Specifications

**Radio:** 2.4GHz

**Standard:** IEEE 802.15.4

**Transmitter Power:** + 7dBm

**Configuration type:** Router, End Point

**Range:** 100ft (30m) LOS through 2 interior walls of standard construction  
Note: Use of metallic wall plates is not recommended as they may interfere with the wireless signals

### System Performance

**Maximum number of Devices:** 200 per Wireless Area Controller (best practice 150 devices)

### Standards/Ratings

- FCC Part 15, Subpart B & C
- Meets latest ASHRAE Standard 90.1 requirements
- Meets latest IECC requirements
- Meets latest CEC Title 24 requirements
- NEMA WD-7 and NEMA 4 compliant
- CA Title 20 and Prop 65 compliant
- RoHS

### Warranty

Five year warranty standard

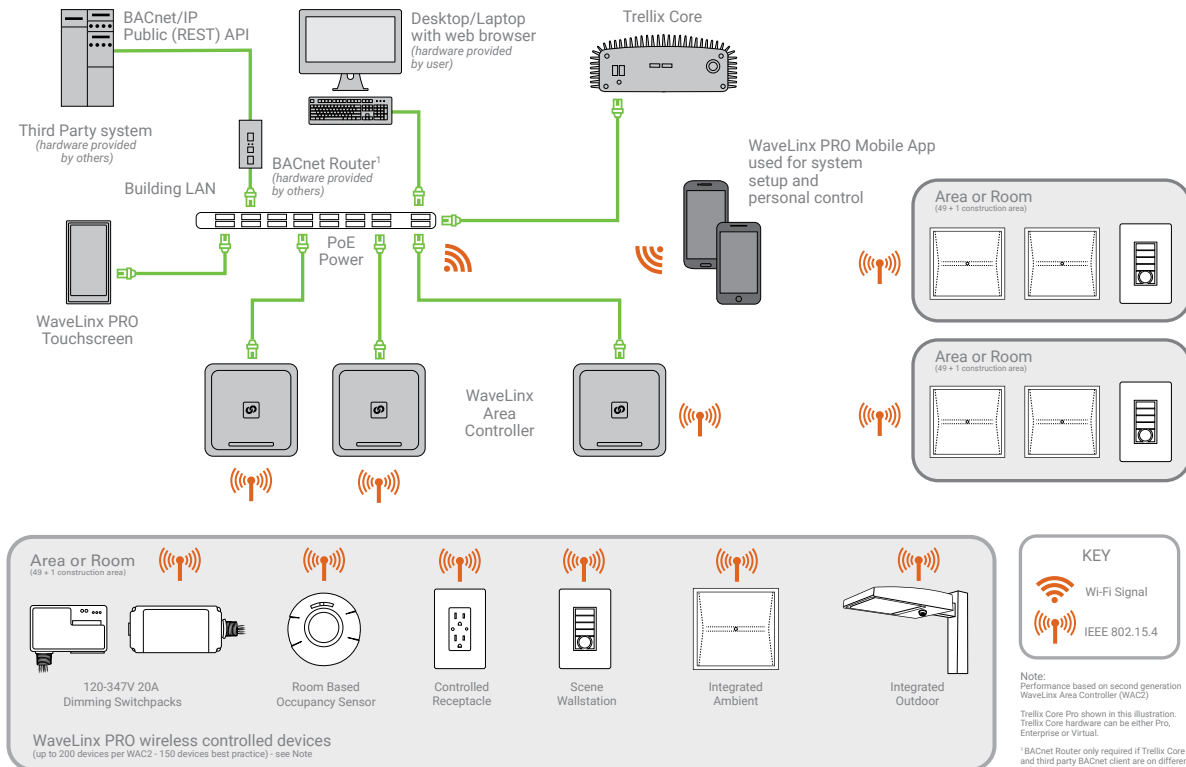

*Note: Use of ammonia based or VOC cleaners on this device must be avoided. Prolonged use may cause loss of integrity and expose electrified components. If this occurs, turn OFF power to the unit and replace.*

Download the WaveLinx Mobile Application from either the Google Play or Apple Store®

## System Architecture

This diagram shows the main components of the WaveLinx PRO connected lighting (WCL) system. The WCL system communicates using wireless mesh technology based on the 802.15.4 standard. A PoE LAN connection for each Wireless Area Controller (WAC) is required for power and data access to the building wireless network. System setup is achieved through a simple mobile application via wireless communication to the system.

## Installation

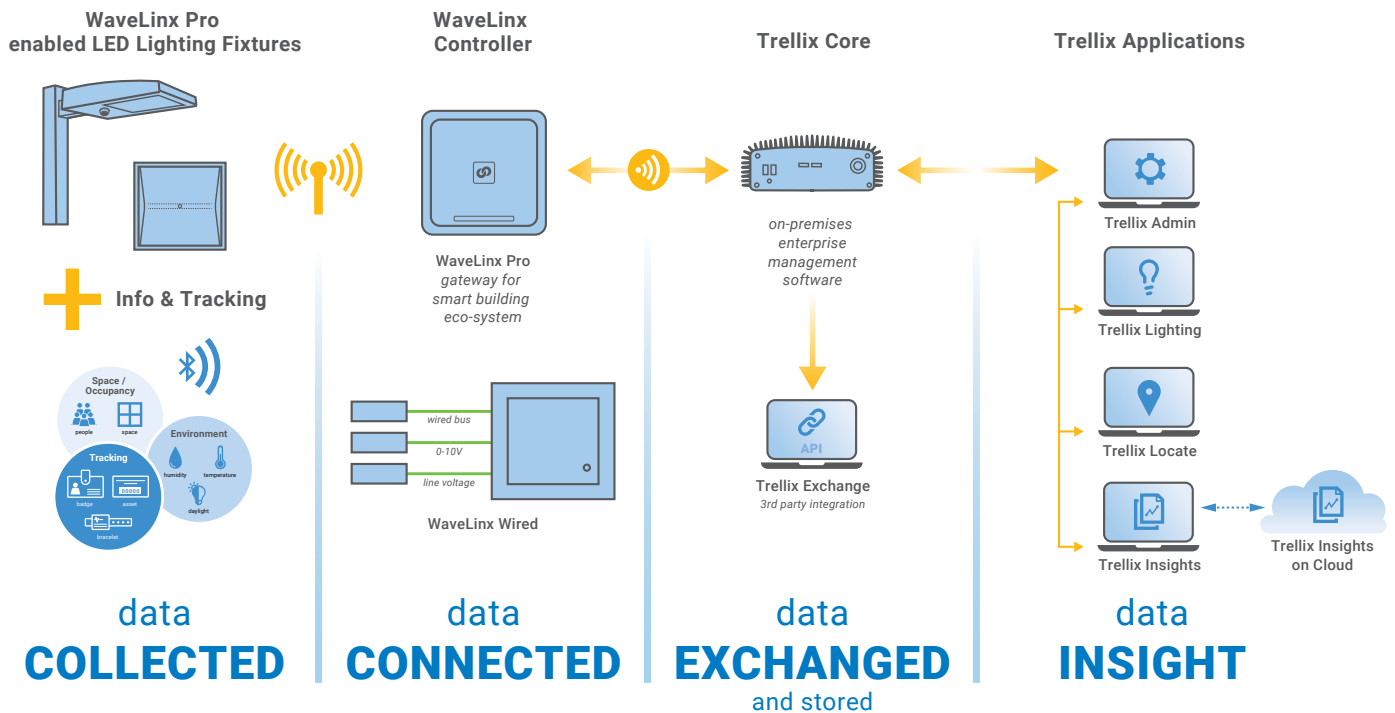

Wall plate not included

## Better Data. Better Decisions.

Trellix combined with our WaveLinx PRO connected lighting system is a distributed network of LED lighting fixtures with integrated sensing and beacon technology that captures real-time data; making your facility smarter so you can make smarter decisions.

Trellix provides an open IoT platform and infrastructure that connects intelligent sensors leveraging the real-estate of the physical light fixture to solve higher complexity problems in a commercial building to deliver actionable insights through the aggregation of valuable data.
